EARLY NOVEMBER

Crabgrass control
\$45.00

LATE NOV/DEC

Starts at \$250.00
+ treatments

HORTICULTURAL OIL SPRAY - (for trees and shrubs) Spring/Fall Dormit Oil: This horticultural oil spray helps to greatly reduce the number of destructive insect eggs like (mites, aphids, adelgids, and scale mealy bugs, etc.) from hatching. This oil based application coats the insect eggs, depriving oxygen to the larvae, which will cease suffocation to many of the insects. This application also helps fight disease that might tend to appear. (Applied January - April & September - December) **HIGHLY RECOMMENDED**.

DEEP ROOT FEEDING - (for trees and shrubs) A specially formulated slow release fertilizer lasts up to 6 full months. You'll see fuller and richer blooms and incredibly vibrant colors on all your ornamentals and flowering shrubs such as rhododendrons, azaleas and all other flowering plants. The injection is for root growth and strength. It also helps fight disease and insect problems. The injection has hormones, numerous vitamin, fertilizer and nutrition. (Applied March - May & September - November). **HIGHLY RECOMMENDED and is very effective STARTS @ \$35 Per shrub and \$75 per tree.**

CLEAN - UP SERVICE around the house area \$150.00 (fee depends on condition and size of property) reseed lawn area \$10.00 per lb. If necessary, brown pelletized granulated lime ph \$30.00, power rake (hand rake) lawn \$100.00, peat moss or seed starter \$25.00, cut and edge lawn \$40.00, clean and prepare flower beds \$25.00, window beds \$25.00, fertilize lawns \$45.00, only if absolutely necessary, (good time for new plantations), top soil will be extra fee if needed. There will be a dumping fee for extra debris and garbage, clean gutters upon request \$75 - \$100. Fertilizer for shrubs and bushes \$75 healthy start granulated soil coil aeration only if requested and needed \$100 minimum fee.

CRABGRASS - preventative to keep control on crabgrass from germinating, starts at \$45.00.

SPOT WEED CONTROL - lawn area, patio, walkway, driveway **AT \$35**, granulated and/or spray, chickweed, broadleaf, dandelions, clover, etc. Starts at \$45.00 per application. **TREFLAN HERBICIDE**, to prevent weeds in flower beds. Starts at \$45.00 (turn on sprinkler systems. Starts at \$90.00. Fertilize lawn before the summer \$45.00

PLANT ANNUALS - if requested . Starts at \$400.00 for 5 flat minimum flowers (optional), (chinch bug, sod web worm control for bill bug and white). **GRUB CONTROL** starts at \$60.00 per treatment. **NUTWEDGE WEED CONTROL**, \$80.00 per treatment, fungus or disease control, \$60 per application.

FERTILIZE - ½ Rate 20-8-8 with **NUTRALENE** (iron supplement) - Starts at \$45.00, **NUTSEDGE SCALLION CONTROL** \$80 per treatment. Can be difficult to control, may take up to 4 years to see the results and get rid of the problem.

TRIMMING - shrubs/hedges around house area starts at \$250.00. Insect control for ants, ticks, earwigs & chinch bug control applied during June or July, starts at \$50.00.

GRUB CONTROL - (for late season grubs) only if absolutely necessary. Starts at \$60.00. Another application of weed lawn control is \$45.00 for lawn turf areas.

FERTILIZE - ½ Rate 20-8-8 with **NUTRALENE** - starts at \$45.00, reseed lawns, soil core aeration \$100. Fall service starts at \$200.00 (front and back yards are included). There is an additional charge for top soil and seeding is \$10.00 per pound. Fertilizer plus re-seeding with peat moss.

BROADLEAF WEED CONTROL - for over wintering weeds will get rid of most weeds including clover \$45.00 (time to plant tulip bulbs) \$2.50 per bulb, Min. 24. Start the removal of fall leaves & debris. Flower bed maintenance is finished for the season.

CRABGRASS CONTROL - will help prevent it in Spring (only if needed due to the strong presence in the Spring will apply only if had a problem during the season). Turn off sprinkler system must. Continue the removal of fall leaves and debris \$90.00 for sprinkler service.

FINAL FALL CLEAN - UP - around the house. This will be final cut for the season, \$40.00. Fertilize with 8-18-12 or comparable slow release nitrogen, high phosphorous fertilizer produces deep root growth, starts at \$45.00.

PELLET GRANULATED LIME for proper ph and additional nutrients, it also helps fertilizer work more efficiently, starts at \$35.00. (Clean gutters, if requested, starts at \$90.00) Extra Fall debris and garbage will create a dumping fee charge.

Please note: Organic Programs are now available for lawn, tree, shrub and whole property care. This lawn turf / cement areas start @ \$2000 + tax per year is for a property size of 45' x 100'. **The lawn prices, don't include Nut-grass/Nutssedge scallion problems, diseases, or fungus control @ \$80 per application.**

Monthly contract (flat rates) Starts at \$150.00 per month from March (Spring clean-up). No power rake service, no trimming with this service, to December (Fall clean - up). (Plus dump fee). There is an extra charge for soil core aeration service, mowing service starts the middle of April through the middle of November. Only fertilizer and granulated lime will be applied to the lawn area, no pesticide applications.

Basic service: Weekly maintenance starts at \$35.00, corner houses and oversize properties start at \$45.00. **Full service** customer's weekly maintenance service starts at \$30.00 (Estimate visits for the season is 26 - 32 visits). The application recommendations in this program are sufficient for control of most regularly occurring lawn and shrub pests. Any additional applications by other firms to your lawn may cause harm to your lawn or the environment and are therefore **NOT RECOMMENDED**.

Minimal biweekly (twice a month visits), mid April - mid November at \$100 per month (corner properties at \$130) plus clean-up service fee.

ALL OTHER REQUESTED SERVICES WILL BE INVOICED SEPARATELY WITH ADDITIONAL CHARGES

NO LAWN OR TREE PESTICIDE APPLICATIONS CAN BE ALLOWED WITHOUT A SIGNED D.E.C. CONTRACT IN OUR OFFICE

MID – SPRING & LATE SPRING ACTIVE INSECT CONTROL:

These two applications are used as a foliar spray to control or suppress soft bodied pests which include (gypsy moth caterpillars, adelgids, aphids, inchworms, leaf miner, scales, tent caterpillars, bagworms, whitefly). These two applications are critical to controlling gypsy moth caterpillar outbreaks. (Applied May, June, July – Sept.). Starts \$80.00 per application (Sevin and Conserve).

HOT SUMMER SPRAY/SUMMER AND FALL CLEANUP SPRAYS: These applications are used as a foliar spray to control or suppress soft bodied pests which include (adelgids, aphids, caterpillars, Japanese beetles, chinch bugs, earwigs, leaf minor, scales, lent caterpillars, whiteflies). (Applied July – Sept). Starts \$80.00 per application.

SUMMER MITE CONTROL: This application is used as a foliar spray to control spider mites during the summer period on ornamental trees and shrubs, deciduous and broad leaf evergreens, foliage ornamentals, bedding plants. (Applied June – Aug.). Starts \$80.00 per application (Floromite).

GRANULAR SYSTEMIC INSECT CONTROL: This product when placed near the roots, is absorbed thru the root system to all parts of the plant, where it kills insects that enter the plantings through the root system. Insects such as (borers, birch leaf miner, taxas weevil, elm leaf beetle, European elm scale, holly leaf miner, lace bug, leaf hoppers, pine tip mutts, soil scale, tea scale, thrips, white flies). (Applied April – Aug). Starts \$45.00 spray bushes and shrubs with Tick/killz. Mosquito spray shrubs/bushes and lawn areas, starts at \$90.00 per application.

DISEASE CONTROL

SPRING DISEASE CONTROL: This is an important application for all sensitive ornamentals, such as fruit trees and evergreens that are susceptible to diseases. Excellent for crabapple, cherry, and plum trees as well as hollies, dogwoods and white pines (Applied mid April, as blooms appear). Starts \$80.00 per application.

SUMMER AND FALL DISEASE CONTROL: These two treatments help eradicate any existing fungus that results as the hot humid months of summer arrives and we continue to treat into the fall. It helps eliminate diseases such as powdery mildew, black root fungus, leaf spot and anthracose. (Applied July thru Oct.). Starts \$80.00 per application.

NUTRITION AND PROTECTOR ANTS

SUMMER FOILER FERTILIZER: Liquid tree and shrub fertilizer that is an excellent nutrient boost for trees & shrubs under stress-(*Gypsy Moth caterpillar damaged trees). (Applied July and August) Starts \$80.00 per application.

WINTER WEATHER SHIELD: This application creates a moisture barrier. It locks in a plants moisture during the cold winter months. It prevents winter burn on ornamental trees and shrubs that keep their leaf or needle all winter long. (Applied Nov. Feb.). Starts \$80.00 per application.

OPTIONAL LAWN & GROUND CARE SERVICES

MOSQUITO, TICK & FLEA CONTROL: These are monthly sprays for (or granulated lawn / turf area application \$60.00) for the control of ground insects such as ticks, fleas and adult mosquitoes, spiders, hornets, flies, wasps, earwigs, LANTERN FLIES,etc. April through October, starts at \$9.00 per application. Tick Killz is a healthy friendly application. Four to six spray applications should be sufficient to control mosquito problems. Please note that we cannot control your neighbor' problems. Most important avoid still water puddles where mosquitoes lay their eggs.

ANT CONTROL (MAX FORCE GRANULAR): A superior ant control bait that controls many types of ants including carpenter ants, red army ants, sugar ants, etc. It is conveniently stored in a reusable container so it can be used whenever any problem arises. Starts \$80.00 per application.

SPRING & SUMMER POISON IVY CONTROL: This application is a foliar spray applied to the broadleaf wood. It will burn plant down to the root. Excellent in controlling Poison Ivy, Poison Oak and Sumac. (Applied Spring, Summer and Fall). Starts \$80.00.

DAMMINEX LYME DISEASE TICK CONTROL: This is a non-spray tick controller that kills ticks at their source, which is the nesting areas of animals such as field mice, squirrels, raccoons and birds. These six inch cardboard damminex tubes filled with cotton that is treated with a product called pemithrin which is the most effective lyme disease tick control product on the market when placed in wooded areas. This is odorless and the sticky cotton will animals like mice, squirrels, raccoons and birds to use it as a nesting tool. It will then actively kill ticks on the animals fur and the tick eggs in the nesting area without harming the host animal. (Applied April thru Oct.). Starts \$80.00 per application.
